

introduction to:// web design

<idesn . 2115 />

portfolio

DESCRIPTION

Create a webpage with an image gallery of your artwork. The images can be of photographs or scans of your work. The gallery should contain at least a dozen images and meet the following requirements:

- » half of the images should contain some type of transparency via the GIF or PNG format (you'll want to remove backgrounds)
- » the other half of the images should be JPEGs or PNGs
- » all of the images should be captioned with the name of the artist, title of the artwork, year, medium, and dimensions

Looking for a challenge? Also create an animated GIF that cross-dissolves between all of the images and place this at the bottom of the page.

OBJECTIVE

The purpose of this assignment is to gain hands-on experience with the variety of web-based graphic formats and to understand the differences between them and how to work with them.

DEADLINE

This assignment is due at the beginning of the next class. Please commit and upload your files to the master branch of your GitHub repository in a subfolder named "03 image gallery."

WEIGHT

This assignment carries a weight of 0.7.
